

Alternative Employee Survey

The Solution against “Pulse Survey Fatigue”

Why a modern alternative to employee surveys is long overdue

With its innovative “Agile Employee Survey 4.0” approach, SMART FED is driving a paradigm shift in the world of employee surveys and feedback. To achieve this, it employs a hybrid concept that uniquely combines the best of traditional employee surveys, pulse and micro-surveys, and instant feedback tools.

1. **Structured feedback that enables automated and multidimensional analysis.**
2. **Timely feedback that immediately reflects current organizational changes.**
3. **Relevant feedback focused on employee- and organization-related topics.**
4. **Authentic feedback based on intrinsic motivation.**

The Advantage

Management, HR, and line managers can respond quickly and effectively to developments within the organization – before they negatively impact employee engagement, retention, or overall organizational performance.

What Makes “Agile Employee Survey 4.0” Different?

The SMART FED approach is characterized by:

- ⇒ **No time or topic restrictions**
- ⇒ **No complex survey projects or time-consuming analyses**
- ⇒ **No survey fatigue among employees**

Instead: acting in the right place, at the right time, with the right priority.

What Does SMART FED Provide to Organizations?

Strengths:

- What employees value in and about the organization
- What works well, efficiently, and effectively

Weaknesses:

- Where obstacles exist in jobs, the work environment, or the organization
- Negative influences on motivation, engagement, or satisfaction
- Negative impacts on efficiency, effectiveness, or performance

Risks:

- Toxic developments in culture and collaboration
- Threats to or violations of compliance
- Critical influences on strategic success factors

What Are SMART FED's Strengths?

Context Analysis:

- Employee feedback is analyzed and visualized within temporal, thematic, and organizational contexts—including clarifications and employee comments

Prioritization:

- Feedback is aggregated and analyzed to derive concrete and precise action recommendations with clear priorities
-

Who Is SMART FED Suitable For?

Ideal for organizations that:

- Have 100+ employees (centralized or distributed)
 - Operate across multiple locations (national or global)
 - Use hybrid or agile organizational models
 - Manage large, international workforce structures
 - Want to identify strengths, risks, and improvement potential
 - Aim to build a culture of listening and appreciation
 - Seek to significantly increase competitiveness
 - Value transparency and authentic feedback
-

Typical Use Cases of SMART FED

Organizations use SMART FED to:

- increase employee satisfaction, motivation, engagement, and retention
 - identify and eliminate causes of employee turnover
 - detect toxic cultural developments early
 - improve organizational culture
 - boost efficiency, effectiveness, and overall performance
 - identify and mitigate business risks in real time
(*e.g., compliance violations, reputational risks, security issues*)
 - take the right action, at the right time, in the right place — with the right priority
-
